SynBioCon

A Pan-India Virtual SynBio Conference

Vision

SynBioCon is a pan-India virtual conference organized by iGEM IIT Bombay and iGEM IIT Kharagpur. Our mission is to catalyze the synthetic biology ecosystem in India by "inspiring the nation, one gene at a time." We aim to bridge the significant gap between high-level academic research and its industrial execution.

Core Objectives

- Industrial Exposure: Providing students with a realistic understanding of the biotech R&D lifecycle and commercialization.
- Innovation Showcase: Highlighting cutting-edge projects from global iGEM teams to demonstrate the versatility of synthetic biology.
- Skill Development: Offering specialized workshops in bioinformatics and tools used in modern bio-industrial design.
- Networking: Connecting India's brightest undergraduates with global pioneers and industry leaders

Event Structure

Duration: 2 Days (March 7th – 8th, 2026).
Platform: Virtual (Microsoft Teams) to enable global participation.
Audience: 500+ undergraduate and postgraduate students, researchers, and biotech enthusiasts from across India.
